MEMORANDUM FOR: [REDACTED]

SUBJECT: Analysis of Psychological Factors in Selection of Bombing Targets

25X1A2g

1. Paragraph 2 of your monthly report for November 1957 (Dispatch [REDACTED] refers to your participation in an analysis of psychological factors in selection of bombing targets, including preparation of an estimate of population densities at various distances from selected targets.

2. It is requested that a copy of any reports and/or maps presenting the results of your research be transmitted. In addition, we would be particularly interested in your comments on the source materials and methodology used in the estimating of population densities.
